

**DO YOU WASTE
???????**

IS THIS YOUR FOOD ???

WHAT HAPPENS TO YOUR WASTE

THE QUESTION YOU ARE ASKING YOURSELF IS WHAT HAPPENS TO WASTE. WELL ALLOW US TO TELL YOU. YOU PROBABLY KNOW THAT FIRST IT GOES INTO YOUR BIN. NEXT IT IS TAKEN BY THE BINMEN. BUT DO YOU KNOW WHAT HAPPENS AFTERWARDS ?

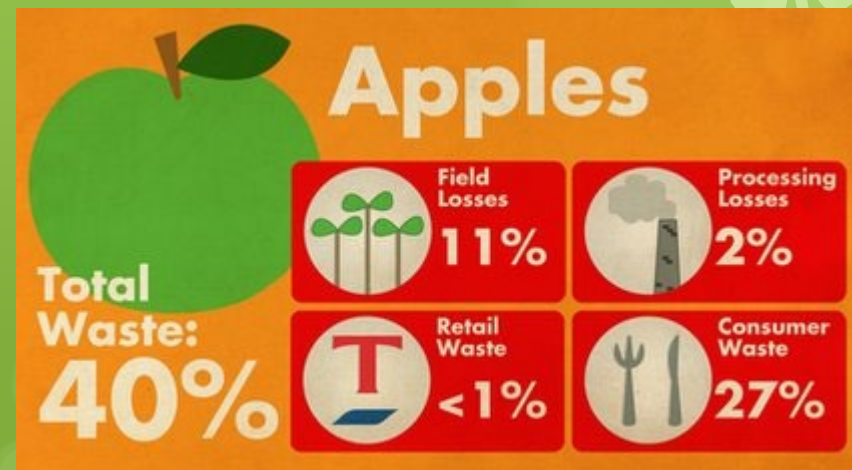

THE LORRIES TAKE THIS RUBBISH TO THE LOCAL LANDFILL SITE. IN SOME AREAS, THIS IS A HOLE THAT HAS BEEN SPECIALLY LINED TO PREVENT DIRECT CONTAMINATION OF THE SURROUNDING LAND. THE WASTE IS DUMPED BURIED IN MORE WASTE AND EVENTUALLY COVERED WITH CLAY AND SOIL.

TESCO HAS REVEALED THAT IT THROWS AWAY 30,000 TONNES OF FOOD IN THE FIRST 6 MONTHS OF THE YEAR!!!

DID YOU KNOW ???????

THINK ABOUT HOW MUCH FOOD YOUR HOUSEHOLD IS WASTING AND HOW MANY PEOPLE WHO ARE STARVING .

THE MOST FOOD IS WASTED IS BAGGED SALAD !!!!!

Now we will watch a clip showing what happens to our waste

<http://www.bbc.co.uk/learningzone/clips/what-happens-to-the-rubbish-we-produce/7362.html>

WHAT ARE THE CONSEQUENCES OF US WASTING FOOD?

IT WOULDN'T BE SO BAD IF WE DID SOMETHING WITH THE WASTE OTHER THAN THROWING IT IN LANDFILLS ,WHERE IT PRODUCES METHANE, APOWERFUL GREENHOUSE GAS . FOOD ACOUNTS FOR 25% OF METHANE PRODUCED FROM LANDFILLS , WHICH EMIT 20% OF METHANE OVERALL . WOW !!!

!THE END!
